

RIDE - ON VACUUM - SWEEPER
FKS 100 PRO

With its especially solid and robust construction, the **FKS 100 PRO** is the ideal machine for daily use even under the most difficult conditions.

The technically sophisticated Tandem-Roller-System (TRS) makes the **FKS 100 PRO** a machine for the optimal removal of fine and coarse dirt in professional working areas - operating quickly, thoroughly and simply.

Convincing advantages:

- Frame: solid, powder-coated welded laser construction, combined with extremely impact-resistant, rotation sintered polyethylene covering
- Exceptionally large dust collector and dust filter
- Quick-change mechanism for roller brushes and side brooms
- Standard: 2 side brooms
- Very easy access to technical components
- Differential drive on both back wheels

Technical data

FKS 100 PRO

Sweeping width (with 2 side brushes)	1000 mm
Sweeping width main roller	600 mm
Sweeping principle	TRS - Tandem roller system
Operation time	approx. 2,5 h
Capacity of dirt collector	70 l
Filter surface	3 m ²
Filter cleaning	electrical
Gradability	20 %
Forward speed max.	6 km/h
Theoretical sweeping performance	6000 m ² /h
Practical sweeping performance	4200 m ² /h
Recommended net cleaning area	up to approx. 8000 m ²
Total length	1190 mm
Total width	790 mm
Total height	1089 mm
Total weight (without battery)	130 kg
Power supply	Battery
Working time (depending on floor, driver, dirt)	up to 2,5 h
Battery wet cell	2 x 12 V a 105 Ah

(HEFTER reserves the right to make technical changes).

Version 01.2013

Product versions:

FKS 100 PRO complete incl.	ARTICLE NO:	10039260
105 Ah wet cell battery	2	
Charger	1	
Side brush	2	
Tanden roller system	1
